1. The following quantities of gas oil (oil fuel) are to be delivered to Czechoslovakia from the Austrian oil refineries in 1952:
 - a. 75,000 tons to the Stalin Works at Zaluži near Most (N51/F13) for use in the production of synthetic aviation gasoline. Deliveries began late in February and should be completed by October 1952.
 - b. 30,000 tons to the Benzinol national corporation in Prague for further distribution. Deliveries were not scheduled until May because Benzinol had no available storage space.
2. A tabulation of the shipments of gas oil from Austrian refineries to the Stalin Works is given below.
